"I already hold a licence but had a 2 hour refresher lesson with Kevin this afternoon in a manual car. He was kind, patient and chatty and put me straight at ease. Very complimentary about my driving and when I did panic at times he calmly instructed me. He

talked me through many scenarios to anticipate in busy Auckland traffic and just general reading of the road. Really happy with my lesson and will be recommending Kevin. Thank you A1! Meg''

Highly recommend him to anyone who has no confidence at all in driving - he boosted my self-esteem especially when I had no idea of how to drive and the rules of the road, etc. I passed my restricted today and am very happy with all the skills I've learnt with A1 driving. Thank you so much Kevin! God bless :)"

"Hey guys the lessons were very helpful and I'm now confident enough to drive manual on my own understanding the mechanics how it works. The instructor Kevin was very helpful and knew exactly how to teach an in experienced manual driver the basics and follow a system that is easy to remember. Kevin was able to make me feel comfortable and confident enough to drive on the main roads and motorway as well as being able to have a good conversation and laugh while driving. It felt less of a pressuring lesson and i looked forward to it everytime. Would Definitely recommend this school and the driving instructor Kevin to anyone who is learning to drive manual."

"Hi Kevin, I am pleased to report that Nathan passed first time. The test was actually re-scheduled to Friday just gone.

He almost stalled once and pulling out from the parallel park was not the best. But everything else was done well. I think he scored points as soon as the tester saw it was a manual. He was certainly impressed with the fact that Nathan could even drive a manual!

I can't thank you enough for your patience and encouragement. I took Nathan over the course prior to the test and I believe he was a prepared for it as much as he could.

So once again, many thanks.

Kind regards, Devika."

"I booked my first lesson with Kevin after I had 5 lessons on manual driving with another instructor. I can see the difference between the 2 teaching styles and I must say Kevin is really a very good instructor. He explained to me steps by steps basic things that I did wrongly and that method helps me pretty much in memorising the principles and applying them to my practice. I capture things that Kevin shares with me easily, thanks for his simple but logical explanation. Moreover, he has never been late for our lessons, not to mention that he patiently waited for me a few times when I ran out late from office. I strongly recommend Kevin as manual and auto car driving instructor (lately I changed to auto car with him and it works perfect for me too)."

"Hi Harald,

I recently passed the restricted driving test, and I'd like to leave some feedback for Barry and Kevin, who helped me prepare for the test.

While preparing for the restricted test with Barry's help, I approached Kevin for additional driving practice in a manual car and he proved to be an excellent instructor! Although I only took a couple of lessons with Kevin, he was very good at identifying the issues I was having and practicing to improve my overall driving experience. By adapting each lesson to use the newly developed skills and focus on a new part of the preparation, I improved quickly. I'm confident that other students will feel the same sense of progression and enjoy their lessons, as much as their driving experience after they get their license too!"

At the end of the session told me that my son was a good driver, but told him things that was going be beneficial when he goes for his restricted, the most appreciative thing is that Kevin is going to let my son use the same car to do his restricted in. knowing what he needs to work on. We have not used Kevin to teach from the beginning, but to fine tune their driving skills."

"Just wanted to give some good feedback about my instructor, Kevin King, whom I had 3 lessons with in September and October. I sat my Restricted for the first time today at AA Meadowlands, and passed it! The examiner was really happy about my driving and complimented me on all my mirror-checking and blindspot checking as well. The examiner said that he was proud to pass me because I showed that I was a safe and competent driver on the road and that we needed more drivers like that around. Thanks for all your help, Kevin, I really appreciate it! Definitely gave me a lot more confidence to sit the Restricted test and pass it first time 'round, and made me feel safer on the road! Best regards, Krystal."

I learned a lot about what to expect and it really prepared me mentally. I also gained some essential tips - Kevin, you were absolutely right about those diverging rules! I have zero recorded ***"NOs"*** and a ***"well done"*** from my tester! I can't thank you enough! PASSED with flying colours,"*

"Taking lessons with A1 Driving was the best thing that I've done. I'm so thankful for Kevin King, for being patient with me and showing me the ropes. In saying that it helped me pass my Restricted. I felt more confident and had more faith in myself, before my lessons I was shy and a little hesitant. I went from a Caterpillar and transformed into a Butterfly. For anyone looking for driving lessons, I'd highly recommend A1 Driving. I'd avoid sitting lessons with other driving agencies that might be cheaper, money wise etc because with A1 you definitely get your moneys worth. SERIOUSLY I've had my fair share and none of them compare. To Kevin and the crew, good luck and hope to see you in 2years for my full. :)"

I am thankful to A1 drivers training, who helped me with my first restricted license that I received in first test and now they have helped me build my confidence for full license.

I would like to suggest for more than one instructor in certain areas such as ours, for it is hard to make appointments that suit us most of the time when there is only one instructor available.

Keep up the great work.

"Kevin King took my son driving after a number of lessons with his father or I. We knew there were things that our son needed to improve on but as usual - the young ones always seem to think they know best. It was great to hear after his first lesson with Kevin that Kevin had picked up on the same things we had tried to teach our son. I guess it is easier to hear from someone else than from your own parents. Thank you Kevin - without you I think we'd still be struggling, and after having our son lose so much confidence after he failed his restricted first time - you have helped to give his confidence back."
