I did my practical test this week and passed on the first go and it was all due to the great lessons that Tony gave. He is a great teacher, very professional, calm, patient and friendly. He gives good instruction and honest feedback that you can go away with and practise. My tester even said, at the end of my test, that my driving showed that I had been instructed well. Thank you Tony! I am very happy at getting my license and I couldn't have done without Tony and A1 driving school. I will definitely recommend his service. Thank you again!"***

"I have nothing but praises for Tony. He is a great example of what an exceptional driving instructor should be. Starting to drive at a much later age I was always little apprehensive about approaching a driving school as I was worried about being judged about my driving, nerves etc. Tony on the other hand treated me like an individual instead of a number and really tailored each lesson to my particular needs. In very few lessons I was able to sit my restricted and pass on my first go. I even recommended a friend of mine who just didnt have great experiences with some driving instructors and with just a few lessons with Tony, she too was able to pass her restricted on her first go. Tony, I will continue to recommend you to other people and am hoping to book you again once I go for my full. Thankyou for giving me the confidence I needed and most iimportantly thank you for throwing in some humour into our lessons at times as it really helps for something which a lot of people out there find so daunting."

***"Hi Harald,***

***I have had 6 lessons with Tony Best and to date it has been a very good experience for me. I am 38 years old and have put off learning to drive for many years due to a bad car accident I caused when driving for the first time back when I was 17. I expected to be really nervous on my first lesson, but Tony put me at ease pretty quickly and took things slowly the first couple of lessons.***

***I now feel like a confident driver and am very surprised by the results. I am actually looking forward to going for my Restricted licence.***

***Regards Dean"***

***"Instructor name: Tony Best***

***Very patient & informative with his explanation of car control. Kept his tone of voice very calm and cool. A good instructor for absolute beginner drivers.***

***Although it would be great if he arrives on time. (He did inform me via phone call he was running late but still, being on time would be great as one may have other commitments too.)***

***Thanks."***

***"Cannot thank Tony enough. I have avoided driving for years, and have had lessons in the past that I didn't take anything from (and actually put me off driving more), however Tony has been amazing. Always very patient, and calm, and gave me so much more confidence with driving. Passed my restricted today! Thanks so much Tony"***

***"I had a driving lesson with Tony Best on Sunday, 26th October. Not only was he patient and very helpful, I also discovered that the way I had been taught by others in the past is actually pretty wrong, had I gone and tried to sit my Restricted by continuing these bad habits then I would have failed. Definitely something to think about and take into consideration while I practise my driving before I book my next lesson a couple of weeks' time. Thanks again!"***

***"Tony Best was great and very helpful. With Tony, I learn very Important things such as using mirrors all the time and positioning cars for turns as well as minor tips that help me become a safe driver. I do not feel pressured at all and I always look forward to the next driving lesson with him. I get taught step by step with a range of roads , He is easy to talk to and explains techniques carefully, tony best was really really helpful, I learn new things that I didn't know before and he really makes sure those things stick in your head. Thanks Tony!" "Thank you so much for the lessons! Im looking forward to have some more lessons with you soon! I Highly recommend Tony Best!!! Sudhakar"***

***"I've had many lessons in the past 8 years with multiple instructors and I never really was able to build up confidence when I was learning with them. They would tell me to drive and then tell me off later for things that I have done wrong from the very first day. I would stop taking lessons with them after a while because it became very daunting."***

***With Tony, I learn new things such as using mirrors and positioning cars for turns as well as minor tips that help me become a better driver. I do not feel pressured at all and I always look forward to the next driving lesson with him. I get taught step by step with a range of roads instead of instantly being thrown on the motorway or busy Manukau roads. He is easy to talk to and explains techniques carefully without the "annoyed" tone that other instructors do. I truly recommend Tony."***
