

"Worked on parallel parking and Jai taught very well and easy for me to understand although I didn't get how to parallel park at first. I am confident now to parallel park with family. Jai noticed that I was not comfortable with cars behind me while mid parallel parking so we moved to a quieter street to start off which I appreciate a lot."

"Jai was my instructor. He helped me build confidence in driving and gain understanding as a driver behind the wheel. With lane changing, merging, going through roundabouts. He is really helpful and explains well. I would 100% recommend Jai as an instructor."

"Jai is an amazing instructor and teaches you everything you need to know. Had him for 3 lessons and couldn't have asked for anyone better. Learnt stuff I wouldn't get from anywhere else. Was crucial in helping me pass my restricted and getting prepared. Would easily book again."

"I had an awesome experience learning to drive with A1 Driving School. My instructor, Jai, was amazing. Over 13 lessons, he walked me through everything I needed to know for the test. He's super patient, which made a big difference, especially when I was nervous in the beginning. He explained things clearly and gave really helpful tips that actually stuck with me while driving. Jai was especially great at teaching parking, especially parallel parking, which I was really worried about at first. But with his help, it started to feel way easier."
